

2010 SPECIAL ORDER CATALOG

RCBS Precisioneered® Dies begin and end with PEOPLE! Experienced people. Patient people. And rarest of all in today's hurry-up rush-it-out world, people who still take great pleasure and pride in doing a better job than the next guy. From machine operators to hand finishers, each is responsible for providing you with the world's finest dies - RCBS Precisioneered® Dies.

RCBS special order dies and case forming dies, like all RCBS dies, are produced in our own plant by the most experienced die craftsmen in the industry. The dies are machined, hardened, hand-finished and hand-inspected for precision and quality. All products in this catalog carry the RCBS lifetime warranty.

With the exception of the Group X Dies, all reloading and case forming dies are manufactured with the standard 7/8" - 14 thread, and may be used with most reloading presses. Group X Dies are manufactured with a 1" - 14 thread for use only in the RCBS AmmoMaster-2, AmmoMaster-Single, Big Max, Rock Chucker Supreme, Rock Chucker, Reloader Special-3 and 5, Model A-2, or Model A-3 presses. When ordering Group X dies you must specify the RCBS press model so the proper adapter bushing can be supplied.

All items in this catalog may be ordered through your RCBS Dealer. Or, you may order direct from the RCBS factory. All factory orders must be paid in advance of shipment and are not subject to cancellation or return for credit. Payment may be made by check or money order in U.S. funds or your order may be charged to your Visa or MasterCard account. Due to bank collection fees, international orders (except Canada) must be paid by MasterCard or Visa only. Sorry, no C.O.D. shipments. Be sure to include your daytime phone number in case we need to contact you concerning your order.

Domestic shipping and handling charges are as follows:

Orders \$000.01-\$20.00 = \$4.50

Orders \$20.01-\$100.00 = \$7.50

Orders \$100.01-\$200.00 = \$11.50

Orders \$200.01-up = \$16.50

UPS Next Day Air and 2nd Day Air are available. International consumer direct orders will be shipped via UPS or Fed Ex International ONLY. Call for more information.

The prices shown are suggested retail only and are not necessarily the prevailing prices in your area. Prices outside the U.S.A. are slightly higher. Prices and specifications are subject to change without notice.

Custom Reloading & Case Forming Dies

RCBS no longer produces unique, one-of-a-kind, custom dies or custom bullet moulds. RCBS still offers approximately 650 special order die sets and 350 case form sets in this special order catalog. RCBS offers more than 1,000 other calibers, reloading die sets and case form sets which are not listed in this catalog. For more information, email rcbs.tech@atk.com or call 1 (800) 533-5000.

Special Order Reloading Die Sets

Special Order Reloading Dies are assigned to pricing groups depending on the number of dies per set, special components, and time required to manufacture. If the desired caliber is out of stock, please allow 30-45 days for delivery.

The part numbers preceding the caliber are for Full Length or 3-Die sets as appropriate. Neck sizing dies and sets, as well as individual dies, are also available. To order other than Full Length or 3-Die sets for a particular caliber, find the GROUP letter and list the appropriate part number with a description from the list to follow.

For example: .17-223 Remington Neck Die Set, 57002 - .17-223 Remington Group G Neck Die set \$143.95.

 ▲ One or more variations of this caliber are known to exist. This listing is for the most popular version. If you are not sure of the version you need, please send 3 sample fired cases so that we may check the dies before shipping.

The circled numbers indicate the following:
 ① Shoulder angle of improved version.
 ② Sample bullet (not cartridge) required with order.
 ③ Bullet diameter.
 ④ Order shell holder by caliber.
 ⑤ When two or more shell holder numbers are given, the usual number is listed first.
 ⑥ Standard bore diameter (.403") - alternate bore diameters: .406", .408", and .412". Check bore diameter before ordering.
 ⑦ Standard bore diameter (.406") - alternate bore diameters: .403", .408", .410" and .412". Check bore diameter before ordering.
 ⑧ Tapered expander-decapping Unit included in the sizer die.
 ⑨ Standard bore diameter (.408") - alternate bore diameters: .403", .406", .410" and .412". Check bore diameter before ordering.
 ⑩ European manufactured cases only.
Delivery explanation: If not in stock, please allow 30-45 days for delivery.

56856	.300 Lapua Mag	G	37/14/⑤	◆ JGS Print ■ CLYMER Print ▲ One or more variations of this caliber are known to exist. This listing is for the most popular version. If you are not sure of the version you need, please send 3 sample fired cases so that we may check the dies before shipping. The circled numbers indicate the following: ① Shoulder angle of improved version. ② Sample bullet (not cartridge) required with order. ③ Bullet diameter. ④ Order shell holder by caliber. ⑤ When two or more shell holder numbers are given, the usual number is listed first. ⑥ Standard bore diameter (.403") - alternate bore diameters: .406", .408", and .412". Check bore diameter before ordering. ⑦ Standard bore diameter (.406") - alternate bore diameters: .403", .408", .410" and .412". Check bore diameter before ordering. ⑧ Tapered expander-decaping Unit included in the sizer die. ⑨ Standard bore diameter (.408") - alternate bore diameters: .403", .406", .410" and .412". Check bore diameter before ordering. ⑩ European manufactured cases only. Delivery explanation: If not in stock, please allow 30-45 days for delivery.

Special Order Case Forming Dies

Case forming dies are for the reloader interested in forming cases of one caliber to another. Reloaders who form their own cases do so for economic reasons or unavailability of original cartridge cases. Some European calibers can not be reformed from American brass without needing a special dimensioned Full Length sizer die. This is due to differences in the case wall/neck thickness of the brass. Unless shown in the following chart, RCBS does not recommend solely using the Full Length sizer die for case forming purposes.

Case forming dies are designed to reduce the case by steps to eliminate case stress or collapse and to prolong case life. After forming and trimming, cases must be full length sized, using the full length sizer in a reloading die set.

Case forming dies will withstand the normal case forming pressures encountered, but are not intended to swage the base of the case. Special base forming dies are supplied when required. Base forming dies are unthreaded and require the use of a 3-ton arbor press.

The trim die is designed so that a mill type file can be used to trim the case to the correct overall length without damaging the surface of the die.

While reaming the inside of cases, an electric drill is NOT recommended. The reamer should be chucked in a hand drill or tap wrench.

The part numbers shown in the following chart are for complete case forming die sets. Individual dies and parts are also available. To order the individual item, first find the GROUP of the CFDs, then reference the cart on page 2 for the part number and list the description. For example:

- .458 Lott Reamer and Reamer Die
- 57107 - .458 Lott Group L Reamer Die \$168.95
- 57028 - .458 Lott Group L Reamer \$76.95

If not in stock, please allow 30 - 45 days for delivery.

58469	.30 Guns & Ammo from .404 Jeffery Basic	G	401.95	The circled numbers indicate the following:			
58470	.30 Guns & Ammo from .404 Jeffery Basic ST ⑥	G	484.95	①	Case Forming Dies not required. Use Full Length Sizer die in final caliber for forming.		
58180	.30 Herrett from .30-30 Win	G	234.95	②	The base diameter of this caliber is much larger than the .30-06 or similar cases and therefore cannot be safely used for forming. Norma cases or ammunition in the respective caliber is recommended.		
58183	.30 Luger from .223 Rem	G	234.95	③	Case Forming dies not required if full length sizer is equipped with a tapered expander ball - beginning April 1983. For dies sold prior to April 1983, order a #09823 expander-decapping unit, .35 Whelen, for installation in the sizer die. A #30765 trim die, .35 Whelen, may also be needed.		
58184	.30 Mauser from .223 Rem	G	319.95	④	Case Forming dies not required if full length sizer is equipped with a tapered expander ball - beginning April 1983. For dies sold prior to April 1983, order a #09823 expander-decapping unit, .35 Whelen, for installation in the sizer die. A #32765 trim die, .358 Winchester, may also be needed.		
29265	.30 Rem from .32 Rem	D	54.95	⑤	Due to the length of this case, a reamer die and reamer are not furnished. Cases must be turned in a lathe to the correct wall thickness.		
58187	.30-338 Win from .300 H&H Mag	G	91.95	⑥	The form set for .404 Jeffrey Straight Tube (ST) cases requires an additional form die and is reflected in the price.		
29465	.30-338 Win from .338 Win	D	54.95	⑦	The form set for .404 Jeffrey Straight Tube (ST) cases requires one less form die and is reflected in the price.		
58188	.30-378 Weatherby Mag from .378 Weatherby Mag	G	166.95	⑧	Required only if RCBS Reloading Die set was manufactured prior to 2000.		
14765	.30-40 Krag from .303 British	A	39.95	⑩	European manufactured cases only.

Special Bullet Mould Price List

The Bullet Moulds, Lube-A-Matic Sizer Dies and Top Punches listed below are available on Special Order. Only the moulds listed below are produced. No custom orders will be accepted. When ordering, specify the part number and complete description of the item. Each mould is described as follows:

Rifle and Pistol Bullet Moulds – The first two(or three) digits indicate bullet caliber, the next three indicate bullet weight in grains, and the letters denote bullet type (FN - Flat Nose, RN - Round Nose, SP - Spire Point, HB - Hollow Base, R - Round Ball and PP - Paper Patch).
